About	Daniel's work ethic can be best summarized in two words: persistent improvement. This involves keeping up with the most recent trends to deliver cutting edge web design and finding smarter development tools and practices. He's also a big fan of rock climbing, enjoys live music and sports (Go Warriors!), singing and dancing, and the occasional late night donut.

Professional Experience

Tightrope Interactive Inc. (San Francisco, CA)|Front End Web Developer
May 2015-Present
